

**Track and monitor
performance and utilization
of your mobile equipment
fleet**

View data from anywhere.

Make fast decisions.

Generate reports quickly.

Customizable dashboard.

A brand-agnostic solution
for your entire fleet.

Minimize the guesswork in fleet operations

Access to timely, accurate data allows minor adjustments that can make a major impact on a job site. Smart Construction Fleet does just that by using a dedicated GPS device to collect and monitor machine utilization and productivity in real time on a web-based platform or mobile app.

View data from anywhere

Access Smart Construction Fleet on your computer or mobile device, select the job site and machines, and you'll instantly see your fleet's activity. No need to travel to the site or wait for reports.

Make fast decisions

Automatically track and analyze load counts, cycle times, haul routes and more to make immediate adjustments that can optimize your operations.

Generate reports quickly

The real-time data points you collect are only the start. Use the portal to generate reports quickly to help you make timely decisions that can drive success.

Customizable dashboard

Collect and analyze the data points you need: productivity, utilization, efficiency, work and traveling history and more. You choose what data to monitor on an easy-to-use portal that can be viewed on or off the job site.

A brand-agnostic solution for your entire fleet

Smart Construction Fleet is compatible with any make, model and manufacturer and can be used in many settings. In addition to equipment on the construction site, use it for loading tools, on-highway trucks, pick-up trucks, water trucks and more.

No matter where you are on your technology journey, our technology solutions experts can help guide and support you.
